

SESCO Group's Company Overview

Founded in 1996 as an environmental investigation and remediation company, SESCO Group (SESCO) has established a reputation for excellence in providing environmental consulting services. SESCO's staff has over 200 years of combined, multidisciplinary environmental consulting experience.

SESCO's Headquarters before Redevelopment

The SESCO office headquarters is located on one of our own brownfields sites. We not only recycle and redevelop land for our clients, we do the same for our company.

SESCO's Headquarters after Redevelopment

SESCO's Mission

The mission of SESCO is to provide support and environmental services that are high-quality, cost-effective and scientifically sound for our clients. Our philosophy enables our clients to achieve their environmental compliance and restoration goals, while protecting the environment and reducing their long-term liability. The core of SESCO's accomplishments is the lasting and valuable partnerships we build with our clients.

SESCO's Vision

- ◆ Be a leader in the environmental industry through our use of knowledge and innovation and by passing the benefits of acquired experience to our clients
- ◆ Provide a supportive, team-oriented work environment for our employees that fosters innovation, growth, and is both personally and professionally rewarding
- ◆ Provide services that result in a social benefit and improve the environmental quality and integrity of our communities

SESCO's Team

We offer a team of highly trained professionals with a breadth of experience, a network of solid relationships and a desire to bring your environmental issues to an efficient and effective close.
